

ENERGY MANAGEMENT POLICY

Beta Healthcare International Ltd is committed to energy efficiency, improvement and conservation, environmental protection, and profitable growth through sustainable development.

We will continue to ensure that our operations comply with the Energy Act 2019, the Energy management Regulations, 2012.

We shall provide necessary resources and all support required to achieve efficiency and conservation.

We shall establish and implement a strategic plan for energy efficiency and conservation.

We will continue to inculcate energy awareness and training amongst our students, employees, business partners and local communities through the process of communication, education and participation.

We shall further commit to:

- Establishment and implementation of a strategic plan for energy efficiency and conservation.
- Set clear targets for energy conservation.
- Adoption of appropriate energy efficient and conservation technologies, equipment and process for existing and all new projects.
- Periodic internal and external energy audits to identify and communicate opportunities for improvement and energy conservation.
- Training personnel to ensure competence in energy efficiency and conservation.
