

Energy Management Policy

Beta Healthcare Limited is committed to energy efficiency improvement and conservation, environmental protection, and profitable growth through sustainable development.

We will continue to ensure that our operations comply with Energy Act, 2006 and the Energy Management Regulations, 2012.

We shall provide resources and all support required to achieve energy efficiency and conservation.

We shall establish and implement a strategic plan for energy efficiency and conservation.

We will continue to inculcate energy awareness and training amongst our students, employees, business partners and local communities through the process of communication, education and participation, and we will strive for:

- Adoption of appropriate energy conservation technologies.
- Adoption of appropriate energy-efficient technologies, equipment and processes for all new projects.
- Periodic internal and external energy audits to identify and communicate opportunities for improvement and energy conservation.

Approved by: 
Regional Head - Safety Health & Environment

Cc.
Chief Executive Officer

The above Energy Management Policy meets the requirements of The Energy (Energy Management) Regulations, 2012 and is hereby approved by the Energy Regulatory Commission.
